JUNE 2017

SAPCA featuring on Food Focus

foodfocus
THE RIGHT WAY

SAPCA is proud to now feature on the Food Focus website and is listed as a 5 star service supplier

Food Focus was established by Linda Jackson, Adele Krogh and Bridget Day as a shared passion for the food industry.

The objective of Food Focus, is to help you find solutions to your compliance issues by providing a hub of information drawing on the experience of recognized experts and service providers.

As many pest control companies work in environments where food is prepared, sold and stored it is therefore very important to comply with legislation. This is where Food Focus will be able to assist.
