

## SAPCA Vision

The Professional Association for the South African Pest Control Industry acting in the interest of our members.

## SAPCA Mission

To foster professionalism and ethical conduct among our members  
 To liaise with government and other institutions on behalf of members and the Pest Control Industry  
 To establish minimum standards to protect the safety & health of the public

## Dichlorvos

The Griffon Poison Information Centre receives many calls from Unregistered Pest Control Operators enquiring about the availability and price of **Dichlorvos 100** for indoor "fumigation". This product is registered for Agricultural applications and strictly only for outdoor use. We want to highlight the importance and to note that **Dichlorvos 100** is NOT registered for Indoor use. No person, whether a registered pest control operator or consumer, may therefore acquire or use Dichlorvos 100 for indoor pest control. Dichlorvos 100 is a hazardous product due to its oral and inhalation toxicity and high concentration. It is exclusively reserved for agricultural use only.

If you are aware of anyone misusing this product, you can inform our SAPCA office by email us.

## SAPCA Roadshows

*SAPCA would like to extend a note of thanks and gratitude to all who attended our Roadshows, both in Gauteng & Cape Town.*

*It was a great experience for all of us and we are excited to see you again soon.*

**We would also like to give a very Big Thank You to all our Sponsors**

**Next Roadshows in 2023**

**EASTERN CAPE Roadshow**

**KZN Roadshow**

## Fumigation Warning Signs

The importance of posting warning signs is not a luxury – it is a necessity – it saves lives. A professional pest controller protects homes and businesses and people from risks associated with both pests and pesticides. SAPCA, along with the Global Pest Management Coalition is busy creating a task force to create standards that can be accepted all around the globe that will enable the Global Coalition members to promote legislation in their countries and professionalize the pest management industry around the world.

Are you using the correct warning/danger signs when doing Fumigation?

You can now order a complete set from the SAPCA office.

Contact our office for more information – 012 654 8038
