DID YOU KNOW?

BATS

There are over 1,100 species of bats worldwide.
 Bats can eat up to 1,200 mosquitoes an hour.
 Without bats, say goodbye to bananas, avocados and mangoes and other fruits etc.
 Bats are not pests and should be protected.
 All bat species are fully protected by law under the Biodiversity (NEMBA) Act 10 of 2004

Ants vs Termites

Ants have shorter wings overall, and their front wings are longer than their hind wings.
 Antennae: Termites have straight antennae, while Ants have bent antennae.
 Body: Termites have little to no visible waist, while Ants have a narrow waist.
 Ant workers are reddish or dark colored while Termite workers are transparent, light-colored.

Farewell wishes

We would like to take this opportunity to thank Clifford Makan for being such an integral part of our team. After 3 years Clifford has decided to spread his wings and leave SAPCA to join his family abroad. Our wish to him is to have infinite accomplishments in his new ventures.

We wish you all the best and thank you for your part in SAPCA.

A big thank you - You'll surely be missed by all.
